

Matching Gifts

Matching gifts are a great and easy way to maximize your donation to the MG Walk! Many employers have matching gift programs, where they will match any donations made by their employees to a non-profit organization. Some companies even match donations made by retirees and/or spouses. Don't forget to encourage your donors to ask their companies about matching gifts too!

Here are some important things you need to know when contacting your employer about a matching gifts program.

1. Contact your Human Resources Department to find out if your company has a matching gifts program.
2. If your company does have a matching gifts program, learn about the protocols to get a donation matched. Do they match donations to any organization? Does your company require a minimum donation amount? What information do you need to provide them when submitting the request to have your donation matched?
3. Collect all of the documentation needed and complete the required paperwork to submit for your matching gift. Be sure to submit it in a timely manner, as matching gifts take time to process and to have a check sent to the MGFA. Make sure you include a request to have your first and last name written on the check that is mailed to the MGFA.
4. Print out or photocopy the confirmation from your company and send it to the MG Walk Office so we know to expect it and can track the gift, if needed.
